

Press Release

May 18, 2026

MITSUI-SOKO HOLDINGS Co., Ltd.

**MITSUI-SOKO HOLDINGS Selected as
SX Nominated Company 2026 for the First Time**

MITSUI-SOKO HOLDINGS Co., Ltd. (Head Office: Chuo-ku, Tokyo; Representative Director, President, Executive Officer, and Group CEO: Hirobumi Koga) has been selected as the SX Nominated Company 2026* in the Sustainability Transformation Brands (SX Brands) program, which is jointly curated by the Ministry of Economy, Trade and Industry (METI) and the Tokyo Stock Exchange (TSE). This marks the first time we have been selected for this honor.

*METI Press Release: [SX Brands 2026 and SX Nominated Companies 2026 Selected](#)

“SX Brands 2026” is a project for selecting a group of progressive companies listed on the TSE that enhance their ability to generate growth capital in a sustainable manner through SX, with the aim of improving corporate value. “SX Nominated Companies 2026” targets companies from among the applicants not selected as SX Brands 2026 that are undertaking outstanding efforts deserving of special attention, and this year, two companies, including us, have been newly selected.

In our selection as an SX Nominated Company 2026, the following points were highly evaluated:

- With our Purpose—Empower society, encourage progress—to contribute to the development of society and industry through logistics, we have positioned supply chain optimization and the provision of high-value-added services as the pillars of our long-term strategy.
- We are also focusing on environmental responsiveness and driving digital transformation (DX), demonstrating a clear commitment to sustainable growth and enhancing corporate value.
- In addition to a forecasting perspective starting from the present, we are redefining our business model for medium- to long-term value creation. This is guided by a backcasting approach that envisions a desired future for 2050 and identifies societal images and customer trends for 2035.

As a corporate group supporting the critical societal infrastructure called logistics, the MITSUI-SOKO Group will continue to promote business management for sustainability that enhances both corporate and societal value, thereby contributing to the realization of a sustainable society.
